## NEWSLETTER

December

### **BIG NEWS!!**

We now have brilliant new badges that we made ourselves by recycling bits we found in the classroom.

### Lunchtime Litter Picking....finally!

We have been trying to get out on a lunchtime litter pick ever since the start of term 2 but the rain and wind kept stopping us. Finally, we managed to go and we found lots of sweets and crisp packets, tissues and even drinks bottles wedged in the hedges. It felt good to pick it all up and know that it would get to a bin and not blow into the sea.

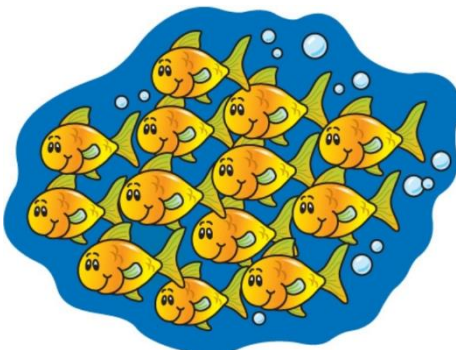

### The Big Battery Hunt

Please remember over Christmas to keep and recycle all your old, used and flat batteries. The yellow box in the office is always there for your donations.

### Christmas Cards

Just like last year, the Eco-Warrior team would like to ask you to send just one Christmas card to your whole class this year, rather than one for every child. This will create much less waste and cost less money. The teachers have agreed to display the class Christmas cards so that everyone can enjoy them and they will decorate the classrooms.

### Did you Know?

Glitter is made from micro-plastics and is one of the most harmful plastics that end up in our oceans where it is often swallowed by marine life. Try to go glitter-free this Christmas!

**We wish you a Recyclable Christmas  
and an Eco New Year!**

St Peter's Eco-Warriors meet every two weeks on a Monday.
