

ECO-WARRIORS

NEWSLETTER

October

Hello!

We are your new Eco-Warriors for the new school year. We are looking forward to making a difference to our school environment, the local area and our community.

We had our first meeting and we have lots of great ideas for projects this year: next week we are off on our first litter pick and then we also want to build bird feeders to hang near the hall; we thought it would be great if every class could grow an indoor plant that they can eat too. And next year, when Spring comes again, we are excited about planting a herb garden.

St Peter's Eco-Warriors meet every two weeks on a Friday.
