Professional Role and Responsibilities

I am employed as the Clerk to Governors, a role in which I collaborate closely with the Governors to ensure they have access to the necessary legislation and guidance relevant to their responsibilities. My duties include recording the Governors' actions, particularly in how they challenge the school leadership to promote ongoing school improvement. The Governors at this school are dedicated and hardworking, and I consider it a privilege to be able to work alongside them.

Career Background

My professional journey in education began as a teacher in further education. I subsequently managed an apprenticeship programme for a large company and later concluded this chapter of my career as a School Business Manager in a primary school.

Passion for Education

My enthusiasm for education was sparked at the age of four. I was proud to achieve a 100% school attendance record, even managing to have childhood illnesses, such as chickenpox, during school holidays rather than term time. Throughout my life, I have found fulfilment in the continuous pursuit of learning new skills and attaining various academic and vocational qualifications, always eager to share my experiences with others.

Family and Personal Life

Family is at the heart of my life, and I absolutely dote on my two wonderful granddaughters, both of whom are now in secondary school. Our two sons are thriving in their respective lives and never fail to make us proud. With extended family members living far and wide, our gatherings are always filled with energy and lively conversation whenever we reunite.
