

# Turtles Class Homework

## Term One

### Art

We have been exploring different ways to make marks. Choose an object in your home to do an observational drawing of. You might choose a teddy, a piece of fruit or even a pair of shoes.

### Geography

Maps help us to identify places. Create a map of a room in your home!

### RE

Christians believe that God is loving and forgiving and that we should be kind to others.

Write/draw 3 acts of kindness that you could carry out. E.g. Pick up litter, make somebody a drink or draw somebody a picture. Now can you carry them out!

### Maths

Practise recognising and forming numbers by writing the numbers to 10 forwards and backwards. Extension - Choose a number and write what 1 more and 1 less of it is.

### Maths

There are lots of different ways to sort and group objects. Collect different objects and find different ways to sort them (buttons, fruit, teddies etc or you could go to the beach/park and collect different items). When sorting you might think about colour, size or type.

Extension - How many items are in each group?

Please complete 5 activities. It is up to you which you choose to do! If you are unable to print any photos, please send them to [hannah.hebdon@st-peters-folkestone.kent.sch.uk](mailto:hannah.hebdon@st-peters-folkestone.kent.sch.uk)

Please bring ALL of your homework into school on Monday 13<sup>th</sup> October.

### English

Practise your writing by writing 3 things about yourself that I might not know. You could write about your favourite animal, what you like to do at the weekends or who is in your family.

### Jigsaw

Jigsaw Jack has been helping us to think about how we belong to Turtle class. Draw a picture of everyone in our class and write a sentence about something you have enjoyed learning about in Turtle class this term.

### Science

We wear different clothes in each season. Design an outfit to wear in Winter, Spring, Summer and Autumn!
