Hi, my name is Mark Champion, and I am the Vice Chair of Governors. I have 4 children, the oldest is 21 and my youngest is 12 all of whom have attended St Peters.

I became a governor when one of my children suggested I could offer my life and work experience as a governor that would benefit the school, and also as I wanted and believed I could help contribute to the children and the school in ensuring all children have the education they deserve and supporting St Peters in achieving their aims to do this.

I assist the Chair of Governors and the headteacher as part of the management team with recruitment and strategic planning. Currently I have the additional responsibilities of Finance, Training, a member of the Worship committee and Health and Safety within school. I also regularly volunteer to help the staff and all years with school trips, beach school, swimming and events, which I enjoy very much.

I feel very rewarded in my role, and have seen many children progress and grow from year R to Year 6 and then on to pastures new. This, as well as my desire to ensure all the children, parents/carers and staff have the support and resources they need to see the children grow and gain knowledge ready for future life, means a lot to me.

I enjoy watching films, going for walks and spending time with my family playing board games and doing puzzles, although I am not very good at the games and puzzles, my children seem to always win!
